Experience- 7.8 years

Professional Summary:

Senior Frontend / UI Engineer with 7.8 years of experience designing and building scalable, cross-platform web and mobile applications using React.js, React Native, TypeScript, and Node.js. Experienced in AI-driven tools, design systems, and Figma plugin development to accelerate design-to-code workflows. Strong background in component-based architectures, Micro Frontends, BFF systems, and cloud-native applications. Proven ability to lead teams, mentor engineers, and deliver high-quality, accessible, and maintainable code following TDD/BDD, SOLID principles, and WCAG accessibility standards.

Technical Skills:

- **Frontend / UI:** React.js, React Native, TypeScript, JavaScript, Redux, Styled Components, HTML5, CSS3, SASS, Bootstrap, Angular 8
 - **Backend / APIs:** Node.js, Express.js, AWS Lambda, RESTful APIs, BFF (Backend-for-Frontend)
 - **Architecture & Design:** Micro Frontends, Component-based Architecture, Scalable Architecture, Design Patterns, System Design
 - **Testing & Quality:** TDD, BDD, Jest, Enzyme, Unit & Integration Testing, Clean Code, CI/CD pipelines
 - **Tools & Platforms:** Figma, Design Systems, LLM / AI integration, Webpack, Babel, Jenkins
 - **Accessibility & Standards:** WCAG Accessibility, Cross-platform UI, Responsive Design
-

Professional Experience:

Salesforce | Dec 2023 – Present

- Designed and developed intuitive, responsive, and accessible web interfaces, improving user engagement.
- Built AI-powered tools and POCs using LLMs to enhance productivity for designers and developers.
- Developed Figma plugins for automated design-to-code conversion, ensuring internal coding standard adherence.
- Integrated AI-driven code generation solutions into internal platforms (e.g., Cursor via MCP) for consistent code quality.

- Created and maintained UI component libraries and design systems, streamlining development across multiple cloud teams.
- Ensured WCAG accessibility compliance across all interfaces.
- Technologies: React.js, TypeScript, JavaScript, Figma, Design Systems, LLM integration, AI-assisted development, WCAG, Component Libraries

Thoughtworks | Dec 2021 – Nov 2023

- Developed a cross-platform web & mobile application (React.js & React Native) serving 400k+ users, 50k+ DAU.
- Designed high-level and low-level architectures for complex flows between host apps and Micro Frontends.
- Owned multiple product features as SME, delivering end-to-end solutions on Node.js and AWS Lambda.
- Led a team of 4 engineers, responsible for planning, estimation, mentoring, and delivery management.
- Ensured 95%+ unit test coverage and comprehensive integration tests.
- Built and maintained BFF systems for seamless frontend-backend integration.
- Technologies: React.js, React Native, Node.js, AWS Lambda, Micro Frontends, TDD/BDD, REST APIs, CI/CD, SOLID, Design Patterns, WCAG

PegaSystems | Jan 2021 – Dec 2021

- Developed a scalable Design System Library using React.js & TypeScript for rapid, consistent UI development.
- Built UI Studio with React.js, TypeScript, Redux, and Styled Components to standardize workflows.
- Configured CI/CD pipelines with Jenkins; managed bundling via Babel & Webpack.
- Followed TDD/BDD using Jest & Enzyme; ensured WCAG accessibility compliance.
- Technologies: React.js, TypeScript, Redux, Styled Components, Babel, Webpack, Jenkins, Jest, Enzyme, TDD/BDD, WCAG, CI/CD

TechMahindra | Apr 2018 – Dec 2020

- Designed and developed a user-centric shopping application, migrating it to a React.js SPA.
- Built responsive UI components with HTML5, CSS3, JavaScript, SASS, and Bootstrap.
- Integrated RESTful APIs with Node.js & Express.js, ensuring seamless frontend-backend communication.
- Technologies: React.js, HTML5, CSS3, SASS, Bootstrap, JavaScript, Node.js, Express.js, SPA, Component-based Architecture

Education:

B.Tech – Dr. B.C. Roy Engineering College, Durgapur, India | Aug 2013 – Jul 2017
